

# America's Choice®

## Railroad Diesel Engine Oils

**America's Choice®** Railroad Diesel Engine Oils are an OEM approved formula designed to provide year-round lubrication in two and four-cycle diesel engines that require zinc-free lubrication. Meets all current GE and EMD specifications for low and high horsepower or turbocharged railroad and marine engines.

Safety-Kleen's closed loop re-refining process takes used engine oil and re-refines it into an exceptional quality base oil that is combined with premium additives to create a high performing re-refined oil. Re-refining oils is an infinitely better way to protect our environment and economy by reducing heavy metal emissions, greenhouse gases and our dependence on foreign oil.

Safety-Kleen, the world's leader in re-refining technology, re-refines **America's Choice®** base oils at our two state-of-the-art re-refineries in East Chicago, Indiana and Breslau, Ontario.

### TYPICAL PROPERTIES

*America's Choice®*

**America's Choice®** Railroad Diesel Engine Oils are available in both straight grade 40 and multigrade 20W40 viscosities at either 13 or 17 TBN levels. There are a variety of formulations available to suit your particular needs.
